

TS464 calibration paper

Instructions for use:

- 1) Print this document on an A4 size sheet. Use heavy, white paper and the best possible resolution and print quality to ensure optimal contrast.
Verify that the page is printed in the right size; the cutout size should be 217 x 185 mm.
- 2) Cut out the sheet along the dotted lines.
- 3) For calibration of your TravelScan 464, insert the sheet with the printed side face down and the edge indicated by the arrows first into the scanner.
- 4) Follow the procedure as indicated in the scanner software.
